Education BSc. In Computer Science & Enginnering – Gono Bishwabidyalay

Experience Softcommerceltd – Full Stack Developer

PHP LARAVEL API JAVASCRIPT VUEJS MONGODB NAGAD & SMS

It is buy & sell platform. Here users buy product and take any service like doctor, car, rent etc. at the same time users sell product and give service with they use ERP system. – Full Stack Developer

More details at [🔗 https://softcommerceltd.com](https://softcommerceltd.com)

Major Challenges

- Google road navigator and step and road distance
- Vps server configuration
- User nearest shop and service provider suggest
- Different type service provider different different information suggest
- Keyword search system notification service provider users what to want maching service provider notify automatic
- Integrate different inventory shop and service wise
- Nagad and sms service integrate

I am successfully done all challenge.

BVON LIMITED – Full Stack Developer

PHP LARAVE API JAVASCRIPT VUE JS MYSQL

It is service platform especially we focus e-commerce, courier, e-learning, doctor.

More details at [🔗 https://github.com/Razibdev/bvons](https://github.com/Razibdev/bvons)

#### Major Challenges

- All Service integrate one system
- If user can apply courier parcel provide to customer current user nearest war shop suggest.
- If any user can buy doctor service he monthly one time free doctor appointment. More then next time pay appointment fee with any time free call service.
- If any user can buy education course buy online payment

I managed all successfully.
